A DEFEAT FOR BOSS PLATT. SEVEN REPUBLICAN SENATORS REFUSE

TO WEAR HIS COLLAR. The Quarantine Bill Sent to the Judiciary Committee to Report as to its Constitu-its suity-Townsey's Anti-Trust Bill.

ALBANY, Feb. 2.—There was more talk over Quarantine to-day, and the Senators went hungrand delayed their luncheons rather than be slient and well fed. To the pleasure of the personal and the Platt Senators were unable to have their own way. There are not more than fourteen Platt Senators, or three less than a majority of the Senate. Hence Senator Fosseit, who had the Quarantine bill in charge, first accepted the amendments of Senator Hawkins an anti-Platt man, and the amendments of Senator Linson, which he had previously rejected. Finally he had to let the whole matter go to the Committee on the Judiciary to see if what the Platt people propose to do in their bills can be done constitutionally. This was a platt defeat. There is a big difference between Thomas C. Platt, Quarantine Commissioner and in power, and T. C. Platt, ex-Quarantine Commissioner. The twenty-five or thirty thou-sand dollars of profit from the Quarantine Commission is in other hands than Mr. Platt's, now that he has been ousted by the court from an office which it was decided he never rightfully held. The organization of the Republican party of the State is still in his hands, but he has Senators with backbone opposed to him since Bismarck Robertson and O'Connor came

to the Senate. Here is the roll of the Senators who have prevented the accomplishment of the designs of Thomas C. Platt; Eugene F. O'Connor of noklyn, William H. Robertson of Katonah. Rowland C. Kellogg of Elizabethtown, William Lewis of Hamden, Edward C. Walker of Batavia, John Coughlin of Buffalo, Simeon S. Hawkins of Jamesport. George B. Sloan of Oswego is also an anti-Platt man by nature. but he is lacking in backbone. There are shough without him to make any wicked hold

owero is also an anti-trace man by nature, but he is lacking in backbone. There are enough without him to make any wicked hold of Mr. Platt's on the Senate impossible, unless some of them backslide.

The first of the two Platt Quarantine bills came up for final passage this morning. This bill fixes the fees of the Health Officer and guarantees him a salary of at least \$10,000 a rear. Senator Hawkings renewed his amendment, which was defeated in Committee of the Whole, that the northern limit of quarantined ports should be Cape Henry, instead of Cape Heniepen, and that quarantine should not be established until June 1, instead of May 1, tenator Fussatt accepted the amendment, although he had opposed it previously. The amendment decreases the fees of quarantine, especially on the coasting trade.

Benator Linson, who is a Democrat, renewed the amendment decreases the fees of quarantine, especially on the coasting trade.

Benator Linson, who is a Democrat, renewed the amendment devices to the Whole, that the salary of the licath Officer should be limited to \$10,000 a year, and that the extra income, if any, should be used to repair the buildings of the Commission. He wanted to keep the salary of the licath Officer down to \$10,000, unless it were clearly shown that there should be a larger salary attached to the office. He was not sure that the Platt bill was constitutional, but if it was, he was confident that his amendment was also constitutional and proper.

Senator Ives made his first speech of the session. He said: "It is time that the Senate should stop discussing this bill in a sham, billind way. We should recognize what this bill is, what it does, and why it is proposed. The flequidicans call it a reform measure. There can be no true reform while the present mananement has charge of the Quarantine. The only possible real reform is to clear away these men who have been holding over in violation of the spirit of the law. The man who instigated and controls the Senator who has charge of this bill sees that he i

and forbids the Excise Commissioners to revoke the license of a liquor seller for the first offence.

Senator Pluto Vedder evolved one of his subtle corporation bills. He explained that he wanted to have the bill examined with care. That is something that all of Senator Vedder's bills need. This one purports to exempt from liability for future debts the stockholders of corporations who have sold their stock and retired before the debts were contracted.

Among bills introduced in Senate and Assembly were these: By Senator Robinson, to give Mt. Vernon an armory: by Senator Murphy, to improve and open the streets of Staten Island; by Mr. Bussh, to provide for the payment of commutation road taxes: by Mr. Rhodes, to incorporate Port Chester; by Mr. Martin, to appoint a State Board for the supervision of contracts, to consist of the Comptroller, State Engineer, and Superintendent of Public Works; by Mr. Blumenthal, to exempt the Montellore Home from taxation; and by Mr. McCann, to make the term of the keeper of the Brooklyn Hall of Records five years.

Mr. Daniel Ebenezer Finn introduced a resolution requiring the Railroad Commissioners to investigate and report to the Assembly within twenty days some plan for the extension of rapid transit facilities about New York and the development of suburban transportation. Senator Murphy's resolution scalnatcher from the Senate and the Senate.

There was a hearing before the Assembly Excise Committee in the afternoon on the High License bill. It was the second hearing. Representatives of the browers and the committee. There are bets offered that the Republicans of the Senate and Assembly will not support the bill without a caucus. Mr. Crosby does not want a caucus but it may be necessary. None has been called yet.

Accused of Stealing from a Mail Package. PHILADELPHIA, Feb. 2.—Robert C. Howell, ex-Captain of Police under Mayor King, and present superintendent of the general delivery department of the Philadelphia Post Office. was arrested to-day on a warrant charging him with embezzlement in taking a necktie "from a package got in his possession by controm a package got in his possession by con-teyance by mail and before the same was de-livered to parties to whom it was addressed." Superintendent Howell denied the whole charge. He declared that it was a "put-up-job" to got him out of the Post Office. "Why, the charge is preposterous." he said. "I re-ported the loss of certain nackages to the Post-master, and it was through me that this in-vestigation was made." Yes, that is true," said Postmaster Harrity, who was standing close by. "I had no idea of the arrest until I was called upon to attend the hearing."

ATLANTA, Feb. 2 .- Gov. Gordon to-day commuted the sentence of Eliza Randall, who was to have been hanged in Clay county on was to have been hanged in Clay county on Friday, to imprisonment for life. Eliza Randall nurdered her father, killing him with an axe. All the details of the crime were of the bloodiest description, and not one word of extenuation was urged in her behalf. Public sontiment against the hanging of a woman was what saved her from the gallows.

CARGET THE GRAND TRUNK AGAIN.

Another Case Against the Querilla Road-Through Export Rates Discussed, With the assistance of Commissioners Fink and Blanchard, the joint Executive Com-mittee of the trunk lines and the Central Traffic Association, which is the organization of the rossis connecting the trunk lines with Chicago. St. Louis, and similar points, put in a good

day's work yesterday.

In the first place, the committee came to the conclusion that the present method of making through export rates was undesirable, and had better be abandoned, and the old system

This result has been foreshadowed for some time. The present rates are made by adding the average of the steamship rates from the several Atlantic ports to a uniform rail rate to each port. The old method consisted of an equalization of rates upon the basis of distance. The proposition to go back to the old

equalization of rates upon the basis of distance. The proposition to go back to the old method will be submitted to each road in the two associations for consideration, and a vote will be taken by letter.

In the atternoon the committee and Chairman Faithorn of the Northwestern Traffic Association, took up the much talked of cutting of West bound rates which has been changed to the so-called "Soo" route and its connections. This route begins with the new road built by ex-Gov. W. D. Washburne and his miller associates in Minneapolis to connect that city with the Canadian Pacific at the Sault Ste. Marie and thus form an independent outlet for the mill products of Minnesota. Its title is the Minneapolis, Sault Ste. Marie and Atlantic Ballway. Its outlet to the Atlantic is over the Canadian Pacific, the Rome. Watertown and Ogdensburg, and the New York, Ontario and Western roads. The "Soo" road was not represented at the conference, but its allies, which have established relations with the trunk lines, were represented.

General Eastern Agent Skinner represented the Canadian Pacific, and General Traffic Manager James E. Childs and Freight Agent Anderson represented the Ontario and Western. They did not have much difficulty in convincing the committee that there had been no cutting of rates over the route of which their roads formed a part, for the reason that no west-bound shipments have yet been made over it.

west-bound shipments have yet been made over it.

Further investigation proved that all of the cutting that has been done has been by the piratical, semi-bankrupt competitor of the trunk lines, the Grand Trunk, and that its agents had tried to blind every one to the fact by charging the offence upon the new route. The representatives of the new route said they did not want to cut rates, and were satisfied that their Western connection, the "Soo" line, did not want to, either. All they wanted was the privilege to make as low rates as any other line made.

did not want to, either. All they wanted was the privilege to make as low rates as any other line made.

In consequence the Grand Trunk people were telegraphed to that they had been found out again, and were asked to reply at once to the question whether the Grand Trunk proposed to stand by its agreement or lead the life of a guerilia. An answer is expected to-day when the committee will meet again.

Some misapprehension appears to exist, particularly in Wall street, as to the effect upon the trunk lines of the slashing of through rates by the roads west of Chicago. Formerly the trunk lines might have been drawn into such a fight, but having been through the fire, they are not likely to go in and be burned again. They see that they hold the key of the sluation and that as no one can compel them to do business for nothing, they do not propose to cheapen the business voluntarily. Their present position is so strong in every respect, that they do not propose to provide with any road west of Chicago upon cut rates. An exception should perhaps be noted in the onse of the Grand Trunk, but as that road is in peril of losing its privilege of transporting goods out of and into the United States under bond, it is not likely to be as unscrupulous as heretofors. One of the obstreporous Western roads, in fact one that has taken the aggressive in the outting, the Chicago, St. Paul and Kansas City, made fresh cuts yesterday on seaboard traffic, for the haul from Chicago to St. Paul and Minneapolis.

No Shoots Two More Birds than Murphy in the Decisive Match. At the grounds of the Carteret Gun Club at Bergen Point there was an excited and enthusiastic gathering of sportsmen yesterday afternoon to see the pigeon shooting match. They had come from all over the county for the third and final contest between Edgar G. Mur-phy and W. Chauncey Floyd-Jones for \$1,000 a side. A better day could scarcely have been chosen. There was an exhibition of marks-

manship seldom equalled anywhere.

spectators. She appeared to enjoy the sport keenly, and heartily applauded whenever a fine shot was made. Once Floyd-Jones's second in loading his gun dropped a shell on the ground and did not pick it up, but replaced it with another from his pecket. Floyd-Jones took the gun with a side remark to his second that was not audible to the bystanders. He fired and missed.

"Oh! He's superstitious!" exclaimed Miss Oakley. "He thinks he lost his luck when his second dropped the shell. Why, the last match I shot my contestant dropped a shell and refused to pick it up. He fired and missed the bird. I picked up the shell and used it, killing my bird with the first barrel. Oh! no, I am not superstitious at all."

The first match for \$4,000 a side occurred on Jan. 19, and was won by Floyd-Jones by one bird, he killing 78 to Murphy's 77. On Jan. 28 the second match for \$500 a side was captured by Murphy by 10 birds. He killed 77 and Floyd-Jones 67.

Yesterday out of the 36 birds missed but few fell outside the 80-yard boundary. In the three matches Murphy killed 225 birds, while Floyd-Jones can only claim 228.

The conditions were 100 birds each, 30 yards rise, and 21 yards boundary. Murphy made a straight run of 22 birds at the outset of the mitch, and Floyd-Jones broke on the 12th. Murphy had a decided advantage all throughout the match until the last ten birds, when he missed four to Floyd-Jones's one. At the end of the first 25 birds they were both tied, and at 50 Murphy was two ahead, and at 75 it was the same.

missed four to Floyd-Jones's one. At the end of the first 25 birds they were both tied, and at 50 Murphy was two ahead, and at 75 it was the same.

The Murphy contingent were offering great odds on their favorite without any takers except one man, who offered \$5,000 to one on him, and was promptly taken up by one of Floyd-Jones's admirers.

Murphy made good use of his second barrel, but Jones gained slowly on him, and ted the score at 78 birds, upon which the Floyd-Jones's faction broke forth into loud cheers. Murphy then dropped one behind, but tied the score at 78 birds, upon which the Floyd-Jones's faction broke forth into loud cheers. Murphy then dropped one behind, but tied the score again at 95. He missed the 98th bird, while Floyd-Jones's coolness carried him over the critical point, and he won by two birds, Murphy missing the last one. Following is the score:

WARTED TO INDICT THE MAYOR.

Mas Any Grand Juryman Got a Candidate for Pire Commissioner? The report got out yesterday that the January Grand Jury, which was discharged on Wednesday by Judge Gildersleeve, busied itself during the closing hours of its existence in discussing the propriety of indicting Mayor Hewitt for his failure to appoint a first Computation of the point a Fire Commissioner to fill the unexpired term of Richard Croker. Fire Commissioner Elward Smith's term expired last May. Com-missioner Croker, who was serving an unexpired term, resigned, and was immediately appointed by Mayor Hewitt for the full term in place of Commissioner Smith. Ever since then the Mayor has been leisurely looking around for one of his angels to fill the vacant unex-pired term. It is impracticable to find out

for one of his angels to fill the vacant unexpired term. It is impracticable to find out what partfeular Grand Juryman or Grand Jurymen considered this a peg to hang a public grisvance on, but it is certain that some of them wanted to indict the Mayor.

The jurors who believe that Mayor Hewitt is a good enough Mayor to let alone, opposed such action on the ground that it wasn't any of the Grand Jury's business anyhow, and that to indict the Mayor for such cause would make that body appear like a lot of ridiculous medders. They hunted up the law and told the witch-finders that it did not require the Mayor to fill vacancies nowadays when the vacancies were not caused by the expiration of an official term. This, coupled with the assurance that Mayor Hewitt probably knew what he was about, carried the day in the jury decate, and the jurors who wanted Mr. Hewitt indicted abandoned the idea. Coupled with the story of the jury's debate came the report that one of the Judges of the General Sessions Court had expressed the opinion that Mayor Hewit really was indictable for allowing the three-headed commission to run along as a two-headed body. Mayor Hewitt was netted when he heard the story and would not discuss the subject.

Close of the Conference Over the Propriety of Indicting Them.

The consultation of lawyers in District Attorney Fellows's office concerning the proposed indictment of Jay Gould and Russell Sage for stealing the Denver Pacific stock from the Kansas Pacific bondholders, for whom they vere trustees, was concluded yesterday. Arguments were presented on Wednesday by Law-yers W. H. Delancey and E. L. Andrews for the Kansas Pacific bondholders, and their arguments were answered by Lawyers Artemus H. Ments were answered by Lawyers Artemus H. Holmes and ex-Judge Dillon for Gould and Sage. Yesterday Bourke Cockran and ex-Judge Dillon spoke for Gould and Sage, and De Lancey Nicoll for the bondholders.

The conference broke up about 5 o'clock, having been in session altogether about eight hours. It was held with closed doors.

District Attorney Fellows said: "I have had gentlemen here representing various interests in the Gould and Sage case for the best part of two days, and I have listened to their various opinions. I shall act as I think best for the general good, and as I would act in any other case. Nothing will be done for severni days. The Grand Jury is not in session, you know. Both sides submitted briefs, and the arguments were taken down and will be printed." Assistant District Attorney Semple said: "Some of the facts on both sides were conceded, The defendants' counsel hold that the acts alleged to have been committed by Mr. Gould and Mr. Sage do not constitute a crime, and even if it was a crime, that the prosecution is barred out by the statute of limitations." THURSDAY, Feb. 2. There appeared to be a combined effort on the part of the local traders on the Stock Ex-change to-day to get the market out of the rut in which it has been running thus far this week. Larger operators doubtless inspired the movement and aided it all they could. The basis for the succession of raids that characterized the dealings was the fresh cutting of rates by the Granger roads, especially upon through business to and from the Atlantic coast. This cutting, which was alleged to have been in-Soo" line, but for which that inveterate offender, the Grand Trunk, is responsible, is the most serious disturbance of rates that has yet occurred. It seems hardly probable that the semi-demoralization of rates that prevails among the Northwestern roads will extend to the trunk lines. That the bears desire such a result is quite evident, and their sales to-day were in part upon the assumption that such a catastrophe is imminent. The trunk lines have promptly undertaken to improve the situation, and unquestionably their influence and

example will count for a good deal.

The attacks upon prices centred in St. Paul, Northwest, Lake Shore, and Texas Pacific, None of them, however, suffered more than a fractional loss. Of course Manhattan came in for its share of depreciation, and, as usual, lost two or three times as much as any of the active stocks. The tone of the market was not perceptibly changed by the professional operations referred to, though they served to increase the volume of trading somewhat. The market derived a good deal of support from the evidence that the strike of the anthracite miners is at an end so far as the individual collieries in the Schuylkill region are concerned. The mo trustworthy advices from the coal regions indicate that the backbone of the strike is broken, and that as soon as the weather permits the re-

moval of natural obstructions operations will be pretty generally resumed throughout the entire anthracite region.

Among the specialities the Chesapeake and Ohio stocks presented the only noteworthy feature. The dealings in them are based not only upon the very material progress that has been made toward perfecting a scheme for the reorganization of the company, but also upon the fact that the scheme is to be taken in hand and underwritten by the bankers who were so successful in effecting the West Shore settlement, and more recently have been identified with the reorganization of the Reading Company. The appearance of this factor in the matter of course practically insures the success of the plan.

matter of course practically insures the success of the plan.

In the Unlisted Department Cotton Oil Trusts sold at 32 to 32%; Chicago and Atlantic beneficiary stock at 6; Duluth, South Shore and Atlantic preferred at 31% to 32; Georgia Pacific at 17; Lehigh and Wilkesburre Coni at 17; New York Mutual Telegraph at 86; North River Construction Secrip at 4% to 5; Western National lank at 98 to 97%; Georgia Pacific 1sts at 109% and 2ds at 49%; Mexican National new 1sts at 96, and Sutro Tunnel at 14 cents a share. The closing was steady at a fair recovery from the lowest prices.

Startling Discovery.

The discovery by the inhabitants of a locality hitherto unvisited by the pestilent accurge of fever and agua, that it exists in their very midst, is decidedly startling. Such discoveries are made at every season, in every part of the Union. Subsequently, when it is ascertained as it invariably is at such times, through the valuable Consolidated Mortgage 6 experience of some one who has been benefited and cured, that Hostotter's Stomach Bitters is a thoroughly efficacions eradicator of the malarial poison, and a means of fortifying the system against it, a feeling of more security and tranquillity reigns throughout the whole neighborhood.
